# Excellence inside!

BWT ROBOTIC POOL CLEANERS  
PROVIDE IMPECCABLE  
CLEANING, CLEAR WATER  
AND IMMACULATE  
SURFACES.

## WHY ARE BWT ROBOTIC POOL CLEANERS THE BEST?

*Because they  
offer much better  
filtration.*

Where is the point in brushing and vacuuming if particles are released back into the water?

This is, however, the case with standard pool robot filtration. With BWT, it is a completely different story, because Best Water Technology is the international leader in water purification and treatment solutions.

Fine filtration is our core business at BWT.

### Unmatched suction power

BWT robotic cleaners feature the most powerful suction of any robot on the market. They can achieve up to twice the suction power through precise adjustment of the nozzles.

The closer they are to the surface being vacuumed, the more powerful the suction. Suction can be adjusted to efficiently capture the type of debris to be picked up. Thus, close to a beach for example, the nozzles can be set down low to effortlessly remove every grain of sand.

*Power inside!*

### The finest filtration on the market

BWT robotic pool cleaners are fitted with a **4D filter**, an exclusive four dimensional filter that cleans four times better than any other.

The filter fabric features loops that capture the smallest micro-particles, up to 2 microns in diameter.

This means that BWT guarantees the finest filtration currently available on the swimming pool market.

*Finesse inside!*

### Ideal for your pool

BWT robotic pool cleaners are perfect for pools of any shape or size, particularly above-ground pools. With their PVA wheels and brushes, BWT robotic cleaners easily navigate **any type of surface**.

*PVA inside!*

### Simple and practical

BWT robotic pool cleaners are **intuitive** and easy to use: you turn it on, and that is it. Freedom is yours!

*Simplicity inside!*

### **Agile on any surface, with an excellent grip**

BWT robotic pool cleaners easily climb the steepest slopes. Always astonishing to see!

### **Fast cleaning**

BWT robotic pool cleaners move quickly and clean fast.

They feature the intelligent and exclusive **Smart navigation system**.

Comprised of a gyroscope and an algorithm, the navigation system scans and detects obstacles, and then **computes the cleaning path**.

The cleaning cycles are shorter and the entire surface to be cleaned is covered.

The pool floor is perfectly clean **with a minimum number of passes**, and in record time.

## Technical data

Pool surface area	up to 60 m <sup>2</sup>
Cleaning cycle duration	1.5 hours
Cleaning type	Floor
Brush type	PVA brush + Vibrating brush
Filtration	4D Filter (x2)
Navigation system	Smart Navigation
Filtration finesse	2 microns
Drive system	Ultimate Power
Cable length	16 m
Adjustable nozzles	Yes
Dimensions (L x W x H)	40.3 x 43.1 x 30.4 cm
Weight	10 Kg
Guarantee	2 years

### Ultimate Power!

BWT robotic cleaners are extremely reliable thanks to a hard-wearing **gear** transmission, a **single drive motor** and a powerful **pump** to pick up debris.

This is the **Ultimate Power** system, the ideal solution for fast, optimised travel, unrivalled reliability, and unmatched cleaning.

### Energy savings

BWT electric robots clean quickly and efficiently. They consume little energy and provide impeccable cleaning.

### Ergonomic

The robotic cleaners are designed and created to be comfortable and easy to use:

- The filter is **top** loaded for easy access. It is fitted with a hand grip to keep your hands clean while washing the filter.

### **Safe and reliable**

The safety of users is of utmost importance. This is why BWT robotic pool cleaners run off a low voltage transformer and are fitted with a **switch with automatic stop**, as required by European standards.

The devices are also equipped with in water and out of water safety mechanisms.

*A world made for you!*

EXCELLENCE, INTELLIGENCE, INNOVATION

The BWT world is made for you, and its robotic pool cleaners are designed with you in mind.

Don't hesitate, step into an exceptional world.
