

BOOST EMAUX TECHNOLOGY 2

UV NANOTECH—OZONE & TABLETS DISPENSER

WITH NON CHLORINE PRODUCTS.

NATURAL POOL

-  Chlorine free pool
-  Natural disinfection
-  No red eye and gentle on your skin

The **BENEFITS** of swimming in natural pool water are well known. The main disinfection with this system is done through Intense Ultra Violet Light - EMAUX Nanotech - destroying the most harmful pathogens. Additional disinfection at this point can be with an optional Ozone generator.

Secondary disinfection known as "Residual Disinfection" is performed by an Emaux tablet dispenser with either Bromine or Oxygen tablets being dissolved and introduced into the water flow. This is valve controlled and adjustable for pool volume and weather conditions. Reductions of up to 80% can be achieved in the use of Bromine and Oxygen tablets with the Emaux Nanotech System.

No Chemical Chlorine

No Trihalomethanes

You will enjoy a pool like real natural & fresh water from a crystal river.

UV-C light Intense UV-C light Kills Bacteria & Viruses

Bacteria or virus

Ozone oxidize any bacteria, virus or organisms

Residual disinfection

remains to keep the water safety

or

UV power	87 watts
Ozone	0.5-0.8 gr/h
Tablet feeder capacity	2 Kg
