

RENOLIT ALKORPLAN TOUCH

TOUCH is the new reinforced membrane ALKORPLAN 2 mm thick. It is the strongest and most resistant on the market and has a natural finish.

TOUCH Membranes have exclusive prints and a 3D embossing that makes them unique, tactile, and visually exciting.

RENOLIT ALKORPLAN TOUCH

The big difference between TOUCH and the rest of the reinforced membranes on the market is its thickness, at 2 mm. This makes it the strongest and most durable out there. The other big difference from what is currently on the market is its great appeal. TOUCH is the first reinforced membrane with relief emulating elements found in nature, such as slate, granite or sand.
