

# User manual

## FitStar<sup>®</sup> massage system Standard

## Technical specifications of the pumps

Code 7202550 – 0,5 kW

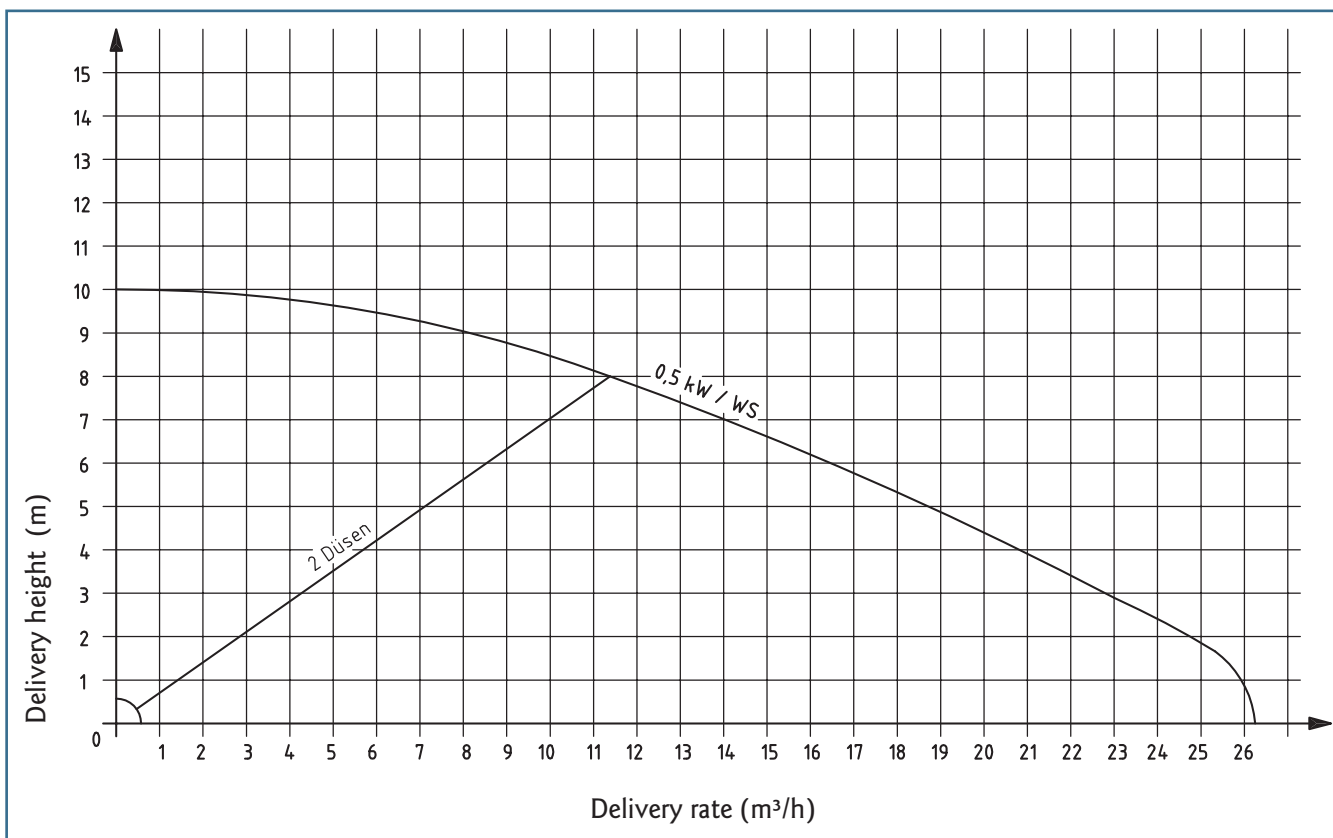

Code 7752050 – 1,5 kW

	Pump rating	0,5 kW	1,5 kW
Delivery rate	2 Düsen / Nozzles / Buses	11 m <sup>3</sup> /h	
	4 Düsen / Nozzles / Buses		24 m <sup>3</sup> /h
	6 Düsen / Nozzles / Buses		31 m <sup>3</sup> /h

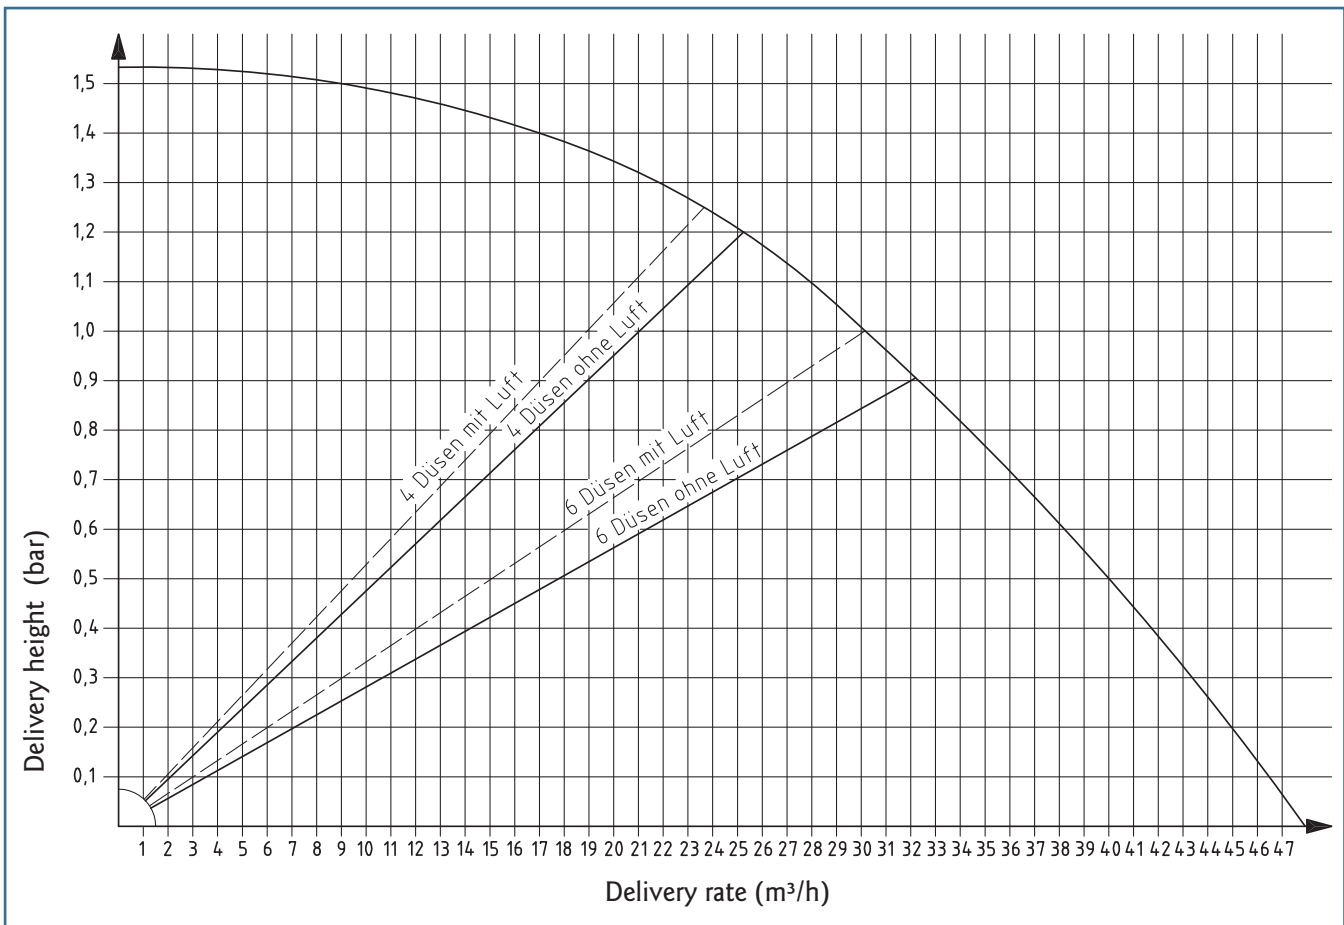

The effective flow rate depends on the configuration of the piping. Stated values are valid for a bend-free piping up to a maximum length of 5 m.

### Characteristic lines of pumps

Massage system Standard 2 nozzles, pump 0.5 kW / AC

**Massage system Standard 4 or 6 nozzles, pump 1.5 kW / AC**

## Pump shaft

**ATTENTION:** The pump is not suitable for operation in the water!  
The manual of the pumps code 577086 has to be completely observed!  
Providing ventilation as well as a drainage in the pump shaft is absolutely necessary.

Minimum: L = 150 cm, B = 100 cm  
Height below water level: 90 cm
