

MIKADO

### **MiKado.**

MiKado is a four-season, safety cover for your pool, which as it completely seals the pool, makes an excellent winter cover keeping out dirt and debris.

The reinforced cover can be rolled or unrolled in less than 3 minutes and comes in a range of 5 colour options; grey, beige, almond, green or blue.

Although the reinforced cover won't provide the same level of insulation as a DEL slatted cover, MiKado will reduce evaporation and help your pool to stay warmer.

MiKado can be fitted to pools up to 5 x 10 meters in size and can be operated by a manual cranking mechanism or the MiKamatic motorised system.

Although the MiKado pool cover is always rectangular in shape, it can accommodate Roman ends or side steps up to 3 meters in size.
