Exceptional Experience

maytronics | institutional pool cleaners

WAVE – THE TRUSTED NAME FOR INSTITUTIONAL POOL CLEANERS

Get the best value for your pool cleaning budget while gaining uncompromising professional cleaning performance, with the Dolphin Wave 200 XL, from Maytronics. This revolutionary institutional pool cleaner delivers long-lasting reliability and the best wall-to-wall cleaning in its class. Easy-to-use and easy-to-clean, it efficiently and effectively cleans large institutional pools, regardless of shape or type, and provides a single-robot solution for multiple pool facilities.

With fast and efficient operation, you can keep your pools open for business while minimizing cleaning downtime.

Wave 200 XL key features and advantages:

Outstanding results:

- **Line-by-line cleaning process** – state-of-the-art programmable tracking systematically cleans the pool floor one path at a time.
- **AutoDirect** – intelligent, self-learning technology and multiple scanning modes delivers systematic, independent and fast cleaning of any large institutional pool of any shape or type.
- **Multi Pattern Scanning** – advanced navigation system and powerful technology ensure complete pool coverage.
- **Highly efficient clog-free filtration with spiral three layer system** - simultaneously separates and filters rough, fine and ultra-fine dirt.
 - Spiral flow system spins the water with large debris off the coarse filter net.
 - The coarse filter mesh retains the large particles allowing the cartridge filter to run longer.
 - The ultra-fine debris is caught in a large pleated cartridge filter.
 - Top access, with snap-in/out separation of the layers, for easy and convenient maintenance and cleaning.

Enhanced Active Brushing system with Spiral Brush – advanced, dual-direction brush system delivers superior cleaning.

- Brushes spin at 1.5x the speed of the robot to efficiently sweep dirt from the front and sides.
- Unique Spiral Brush sweeps dirt from both sides of the robot towards the center of the vacuum.
- Four side brushes clean the corners between the pool floor and walls.

Easy to use and maintain

- **Easy, everyday operation and maintenance** with interactive MMI for intuitive programming and diagnosis of pool cleaner, including:
 - Automatic pool entry and exit using “Drive to pool” and “Drive home” features.
 - Choice of programs and multiple operation modes displayed on a user-friendly LCD screen.
 - Remote control for manual manoeuvring to clean hard-to-reach pool corners.
 - Full filter bag indicator.
 - Operation delay feature.
- **Multipurpose Caddy with Auto Cable Release** - transports the robot and automatically releases just enough cable to reach the far end of the pool, preventing kinks and tangles, simply crank the reel to neatly rewind the cable.

Cost-effective, long-lasting value

- **Multi-pool cleaning** – setup of up to four different scanning modes and remote control IDs provides optimized cleaning of multiple different pools with a single robot.
- **Save precious time and minimize interruption with easy access and simple repair** – technician mode allows diagnosis and service at poolside via a built-in interface with USB connection.

Professional support and service

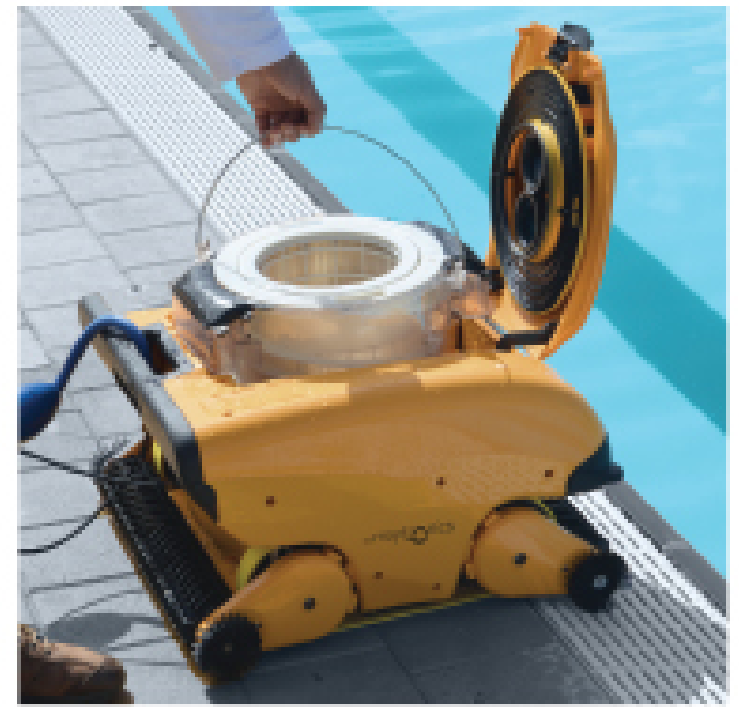

- Full warranty on non-wearable parts for 36 months or 3000 hours, whichever comes first. Maytronics also offers extended warranty programs. Please contact your dealer for details.
- Onsite start up and training provided by certified Maytronics product experts.

			
MMI - Interface control, operation modes & analyzing	Dual direction brush	Auto direct intelligent self-learning scanning technology	Remote control for manual maneuvering
			
Spiral two layer system	line-by-line cleaning process	Auto cable release	CleverClean™ scanning system

Wave 200 XL Product Specifications

Ideal for pools	Up to 33 m in length
Cycle time	1, 2, 3, 4, 5, 6, 7, 8 hours
Cable	115 feet
Weight	52 lbs
Suction rate	150 gpm
Moving speed	41 feet per minute
Filtration	Spiral 3 layer system
Brushes	Dual direction active brushes rotates 1.5 faster than the robot
MMI	Control panel for programming and technician support
Auto direct navigation system	Multiple scanning patterns
Warranty	36 months or 3000 hours on non-wearable parts

About Maytronics

Nobody knows robotic pool cleaners like Maytronics – the company behind industry-leading Dolphin robots. For more than 30 years, we have been developing robotic cleaning solutions for the world's swimming pools.

Starting in 1983, we pioneered automated electronic pool cleaning technology. Today, Maytronics remains the market leader, continually setting new standards for technological innovation, design and reliability. In everything we do, we strive to make pool owners' and users' lives easier and more enjoyable.

Our goal: to enable an exceptional experience of a pure, clean, safe, and relaxing pool.
