

wave 300 XL

Exceptional Experience

maytronics | institutional pool cleaners

WAVE – THE TRUSTED NAME FOR COMMERCIAL POOL CLEANERS

Top-of-the-line, professional pool cleaning performance that meets the challenging requirements of large aquatic facilities. WAVE 300 XL, from Maytronics, is the ideal robotic cleaner for large institutional pools, Olympic facilities, water parks and other sites with pools up to 50 meters in length.

Designed for long-lasting reliability with daily operation, Dolphin WAVE 300 XL excels at heavy-duty dirt collection and delivers the best cleaning performance in its class. It works efficiently and effectively in any large pool, regardless of shape or type, including beach entry pools.

Dolphin Wave 300 XL key features & advantages

Outstanding results:

- Enhanced water suction flow ensures efficient dirt collection, leaving a perfectly clean surface.
- Multiple scanning modes for complete pool coverage.
- Out of water sensing in beach entry pools directs the robot to stop in 9" of water, back-up and return to the pool.
- Line-by-Line mode – Ideal for cleaning competition pools.
- Criss-Cross mode – Ideal for free-shape pools.
- Advanced navigation system – highly accurate gyroscope and compass that assure complete pool coverage even in irregularly shaped pools.
- Dual-active brushing system, with four small additional brushes for brushing corners, removes algae and bacteria.
- Effective filtration system with top-access for easy, simple bag removal.
- Three filter porosity choices for optimal dirt collection.
- 70 micron – Fine filter bags efficiently trap day to day dirt.
- 50 micron - Ultra-fine filter bags collect fine dust particles.
- 120 micron – course filter bags mesh filter net catches leaves and rough debris.

Easy to maintain

- MMI – interactive digital interface panel - with full filter bag indicator, operation delay, and modes of operation:
- Automatic operation of "Drive to pool" and "Drive home" allowing easy operation, with minimal hassle.
- Choice of programs displayed on a user-friendly LCD screen.
- Cycle time cleaning mode allows scanning programs to be programmed for up to 4 different pools
- Technician mode allows diagnosis and service at poolside via a built-in interface with USB connection.
- **Multipurpose Caddy with Auto Cable Release** - transports the robot and automatically releases just enough cable to reach the far end of the pool, preventing kinks and tangles, simply crank the reel to neatly rewind the cable.
- Remote control for manual maneuvering.
- Simple installation and quick start mode for daily operation.

Cost-effective, long-lasting value

- **Multi-pool cleaning** – setup of up to four different scanning modes and remote control IDs provides optimized cleaning of multiple different pools with a single robot.
- **Save precious time and minimize interruption with easy access and simple repair** – technician mode allows diagnosis and service at poolside via a built-in interface with USB connection.

Professional support and service

- Nationwide network of certified dealers for local support
- 36 month or 3000 hours warranty on parts and labor.
- Onsite operator training program provided by wave exclusive dealers.

Wave 300 XL Product Specifications

Cycle time	1-8 hours
Cable	141 feet
Weight	55 pounds
Suction rate	175 gallons per minute
Linear speed	50 ft per minute
Filtration	Three filter porosity choices for fine and heavy cleaning.
Brushes	Dual-active brushes and 4 side brushes for effective cleaning of all pool floor surfaces
MMI	Interactive digital screen – selectable cleaning modes and on-screen technical diagnostics
XL navigation system	Precise tracking using gyroscope and compass systems
Warranty	36 months or 3000 hours

About Maytronics

Nobody knows robotic pool cleaners like Maytronics – the company behind industry-leading Dolphin robots. For more than 30 years, we have been developing robotic cleaning solutions for the world's swimming pools.

Starting in 1983, we pioneered automated electronic pool cleaning technology. Today, Maytronics remains the market leader, continually setting new standards for technological innovation, design and reliability. In everything we do, we strive to make pool owners' and users' lives easier and more enjoyable.

Our goal: to enable an exceptional experience of a pure, clean, safe, and relaxing pool.
