

SUGAR VALLEY OPTIONS & SPARE PARTS

The various components of the Sugar Valley systems have a maximum number of working hours. Below you will find an overview of all the spare parts.

TYPE	ART. NR.
Free chlorine control (ppm) option	TA162
Salt electrolysis cell Sal & Bio 16 (RC16)	TA165
Salt electrolysis cell Sal & Bio 22 (RC22)	TA166
Salt electrolysis cell Sal & Bio 33 (RC33)	TA167
Hydrolysis cell HD1 & OX1 (RCB16)	TA174
Hydrolysis cell HD2 & OX2 until 2013 (RCB33)	TA175A
Hydrolysis cell HD2 & OX2 from 2014 (RCB33)	TA175B
Hydrolysis cell HD3 & OX3 (RCB50)	TA176
Hydrolysis cell HD + OX3 (RCB50 from 2016)	TA176A
Housing 63mm for cell (RC16, RC22, RCB16)	TA170
Housing 63mm for cell (RC33, RCB33, RCB50)	TA177
Ionization chamber for 2 electrodes	TA180
Copper electrode	TA182
Coupler for Copper electrode	TA184
Separate plastic PH sensor with 2 meter cable	TA186
Separate plastic Redox sensor with 2 meter cable	TA190
Adjustable dosing pump 0,6-6 l/h	TA159
Santoprene hose for dosing pump	TA161
Hose reel holder for dosing pump	TA161A
Foot valve suction hose for dosing pump	TA161C
Temperature module	TA193
Portable display holder	TA198
Calibration solution pH7 ACSpH7	TA200
Calibration solution pH10 ACSpH10	TA201
Calibration solution Redox ACSrX	TA202
Cleaning solution ACSpHN	TA203
Earthing cable 2 metres	TA189
Separate glass pH sensor with 2 meter cable	TA188
Separate glass Redox sensor with 2 meter cable	TA192
Color display SV (excl. cable)	TA178
Sugar Valley Touch Screen	TA138
Cable for Color display SV	TA179
Installation set Deluxe: Measuring cel TA172, pH & Rx chips, calibration liquids and flow switch	TA204
Installation set Premium: Measuring cel TA169, pH & Rx chips, calibration liquids and flow switch	TA209
Electrode holder 1/2" male threadED	TA181
1/2" injection valve	TA183
