REINFORCED MEMBRANE

VERSATILE, RELIABLE AND PRINTED

The CGT reinforced membrane material is made of two layers of premium PVC film, reinforced with a woven polyester mesh. This combination of engineered construction, technical performance and innovative design ensures the perfect fit for your pool.

CGT MEMBRANES ADVANTAGES

- Industry leading UV defense.
- Unparalleled bleach resistant formula achieves the lowest fading levels in the industry.
- Engineered specific protective topcoat to safeguard against stains and print wear.
- High resistance against material cracking.
- Superior handling for easy installation.
- 1.8mm thick 3D material allowing overlap welding and butt welding.
