AUTOMATIC SLATTED COVER**

ROLLEASY 2

The easiest cover to install

DEL

ABOVE-GROUND AUTOMATIC SLATTED COVER ROLLEASY 2

+ FINISHES

- Sturdy end-stands thanks to materials (lacquered aluminium) and components carefully selected for a perfect stability and an optimal rendering.
- Simple in its conception to fit will all environments.

+ CUSTOMISABLE

- 3 versions available: electric, solar and manual.
- Customised end-stands for a perfect integration in the garden (from our collection).

Cover available for pools from 2.00 x 3.00 m and up to 8.00 x 14 m.

1 END-STANDS

- Lacquered aluminium end-stands.

2 ANODISED TUBE

3 MOTORISATION (for electric and solar versions)

- 12 V low voltage electric tubular motor.
- The lifetime of the motor is longer thanks to the bearings which support the tube and therefore the weight of the cover.
- Control box with a 200 VA transformer, protected by a magnetic-thermal circuit breaker. Controlled by key switch.

4 LOCKING KITS

5 SLATS

- Opaque PVC 84 slats, solar polycarbonate slats or opaque PVC 69 slats.

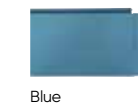

Your slats choice

All our slats have a quality finish and are compliant with the NF P 90-308 standard.

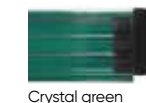

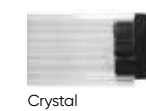

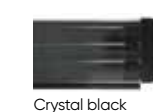

Opaque PVC 84 slats

Opaque PVC 69 slats

Solar polycarbonate slats

Why cover your pool?

- Reduce water consumption by limiting evaporation.
- Reduces energy consumption.
 - Makes cleaning easier & reduced consumption of chemical products.

USEFUL TO KNOW

Choose solar polycarbonate slats to heat your pool water.
