

THE LEADING MODEL

Gyro technology: This new smart navigation system will ensure your pool is thoroughly cleaned every time. It avoids all types of obstacles and has a tangle-free power cable.

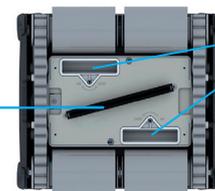

MORE POWERFUL + MORE EFFICIENT + MORE RELIABLE

Advantages of a single platform and a block comprising 2 motors and 1 filtration pump:

- Improved power transmission.
- More effective vibration cleaning brush.
- Lasts longer: no drive belts required and enhanced motor seals.
- Enhanced features: double traction motor + Gyro system.
- Easy for customers to repair: 4 screws to replace the motor block and direct access to gears and bearings.

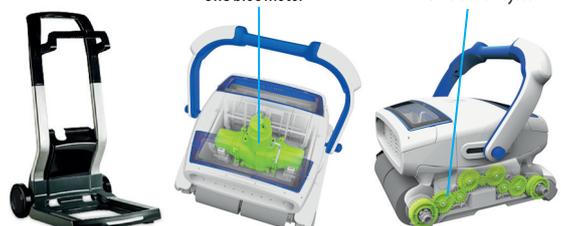

Vibrating brush

Adjustable suction nozzles

One bloc motor

New traction system

TECHNICAL CHARACTERISTICS
